## **Long Term Care Members to Benefit from New Agreement Between Amerinet and EmLogis, Inc.**

Amerinet Inc., a leading national healthcare group purchasing organization, announces a new agreement with EmLogis, Inc., a leading provider of WorkForce Modeling™ solutions powered by Adaptive Programming for Long Term Care scheduling and operations.

Effective June 1, 2009, through May 31, 2012, the contract offers Amerinet members significant savings on the EmLogis solution, which produces a workforce model to match staffing and operational resources to census and acuity. The approach helps user facilities to minimize cost, reduce overtime, measurably improve resident outcomes, and enhance employee satisfaction thus improving retention. Typically, cost savings are 5 to 20 percent of payroll with reduction in overtime from 80 to 100 percent depending on business objectives.

### **About EmLogis**

EmLogis is an emerging technology solutions company that has successfully delivered Workforce Modeling for healthcare organizations. The EmLogis GENERATOR™ product uses a proprietary breakthrough technology called Adaptive Programming, to integrate healthcare resources with the need for care giving. Adaptive Programming identifies resource and expertise efficiencies that reduce payroll, improve resident outcomes while simultaneously increasing employee satisfaction and retention. By leveraging the Internet as a service platform, the EmLogis system is capable of scaling from a single facility or unit to enterprise-wide deployment. GENERATOR has proven to simplify employee logistics, deliver significant efficiency gains and a positive Return On Investment.
